The course will include: observation, proportions, tone, effects of light & shade, perspective and exploring the use of different materials and tools. To begin with you will need to bring a set of pencils with a range of hardness and cartridge paper.

"Humanity has made marks since the dawn of time and drawing is an essential part of our visual expression. We can make marks with anything today (there are numerous mark making materials from pencils to fibre tips) to communicate our thoughts, our faith and our feelings (as well as what we see) and we need to explore suitable methods and materials to express them. This is what we shall spend time reviewing on this Drawing Course."

Michael trained at the West Of England College of Art. After most of his career in Art and Design, he became the Senior Tutor in Graphic Design at Brunel College. He has also worked as a freelance book designer and illustrator. As an Artist, Michael is a member of the renowned 'Bristol Savages Club' and is a past president. He regularly exhibited at the Paragon Gallery Cheltenham over a number of years and in 2018 Michael held a one man show at the Chapel Gallery, Cheltenham. Michael has exhibited widely throughout the West Country and his bold, visually striking work is held in a number of art collections. He is currently interested in colour and texture in the landscape and interpreting it into bold compositions.
